- Competitiveness remains in high priority and we believe its our customers right.
- Complying to time frames stipulated by Customer and meeting dead lines will remain as our main concern always.
- Maintaining Customer relations is the spirit of tfpl team & Customer Satisfaction is what we aim, at all times and in all cases.

= High Professionalism, Good interpersonal relations , Satisfied Customer.

CONSULTING OFFER

MULTI-BUSINESS OFFER

As an overseer and organizer of implementation in Saudi Arabia, TFPL engages in and coordinates all of the business lines related to transport and logistics for your satisfaction and that of your customers. Our **Multi Business Offers and Package** will offer you a “One stop” place for all Logistics requirements in this region. This is possible for us due to our integrated services and expertise in below fields

Supply Chain management
Distribution
Logistics
Full Truck and Part truck Loads
Distribution
Air & sea freight
Customs Affairs

Consulting offer :

Advice offer

“TFPL” mission is to provide recognized expertise to customers, regardless of their line of business, who wish to outsource their overall logistics operations. This expertise covers both "business line" aspects--distribution and production logistics--and information systems and/or engineering. Depending on the customer's choice, it can take place at the strategic, tactical and/or operational level...

At the strategic level :

Establishment of a logistics master plan in conjunction with our customer's teams: assessment of the existing supply chain and drafting of recommendations to facilitate the tasks of oversight and execution.

-At the tactical level :

Definition, implementation and oversight of supply chain sub-processes, such as management of transport, sourcing, warehousing and distribution (4PL approach) based on the logistic strategy defined by the customer.

-At the operational level :

Sector expertise for business process reengineering (BPR) of existing processes.

Logistics is commonly known as “the process of planning, implementing, and controlling the efficient, cost effective flow, storage and transportation of raw materials, in-process inventory, finished goods and related information from point of origin to point of consumption for the purpose of meeting customer requirements”.

On that account, “TFPL” with Systematic working/reporting system, experienced staff & finally cost effective freight proposals believe, now that we have all the above factors right in place, we could be your potential logistics partner in the future. Offer us a chance to deal with your Logistics challenges...
